

MIKO

WELCOME TO MIKO!

At Mont Rochelle the food served is a blend of international dishes with a healthy nod to the varied nature of South African cuisine and naturally paired with some superb local vintages.

Mont Rochelle has two restaurants: Miko and The Country Kitchen, located next to our wine cellar.

The name Miko pays homage to our previous owner Mr Miko Rwayitare, who was the first black owner of a vineyard in South Africa. The vineyard's premium wine was named after him – as well as the restaurant you find yourself in now.

THE COUNTRY KITCHEN

The Country Kitchen is either a short walk or a quick drive from the main hotel building, so if you're visiting for lunch or dinner or off to the wine cellar, just let us know and we'll take you over in one of our vehicles.

WINE TASTING

Here at Mont Rochelle wine tasting isn't just a special event – it's an everyday occurrence. We can organize wine tastings at the Country Kitchen.

We can tailor your experience from quick and easy introductory tastings to more in-depth cellar tours followed by gourmet tastings. Enjoy wine tasting in our historic wine cellar, beside one of the fireplaces in winter, or sip a chilled Sauvignon Blanc while taking in the beauty of the surrounding mountains during the summer.

Previously a fruit packing shed, our cellar has many quirky elements and a unique feel. If you'd like to book a tasting just let the team at the hotel's reception know your preferred times to visit and we'll organize that for you. If you have a larger group... no problem – we just ask for at least 24 hours' notice so we can be prepared.

We hope you enjoy your visit!

FOOD AND WINE PAIRING

Food and Wine matching is the process of pairing the two to enhance a dining experience and thus finding the right combination of these elements will make the entire dining experience even more enjoyable. However, taste and enjoyment are very subjective and what may be a "textbook perfect" pairing for one taster could be less enjoyable to another.

Though there are detailed guidelines on how to pair food and wine, most food and wine experts believe that the most basic element of food and wine pairing is understanding the balance between the "weight" of the food and the weight or body of the wine. Heavy, robust wines can overwhelm a light, delicate dish like a quiche, while light-bodied wines would be similarly overwhelmed by a hearty stew.

Beyond weight, flavours and textures can either be contrasted or complemented. From there a food and wine pairing can also take into consideration the sugar, acid, alcohol and tannins of the wine and how they can be accentuated or minimized when paired with certain types of food.
